

IK10 SERIES | Solar Bollard

A premium quality solar bollard with dual direction lighting, designed to provide an easy accessible solar powered illumination in high-end residential areas and parks.

Featuring a sleek water droplet design, this sophisticated solar bollard is equipped with a high efficiency solar panel protected by a plastic cover, achieving an impressive IK10 rating. Built-in microwave sensors is used to save more energy by detecting motion.

Ideal for luxurious communities and serene park settings, our solar bollard combines elegance and functionality, offering reliable, high-performance lighting with minimal maintenance. Illuminate your spaces with the perfect blend of style and innovation.
